Re: NDPDES Permit No. NDG070581

We have received your "Application for Permit to Discharge - NDPDES Industrial-Short Form C" and have granted authority to discharge under the General Permit for Temporary Discharges, Permit NDG070000. Your facility has been assigned permit no. **NDG070581**. This permit has been issued by the North Dakota Department of Health (NDDoH) with the understanding that all other applicable permits and permissions have been obtained for the start of the following project. The application indicates that the discharge(s) will consist of water discharged from the hydrostatic testing of new storage tanks at six tank terminal sites associated with the Dakota Access Pipeline Project.

<u>Discharge Point</u>	<u>Volume (million gallons)</u>	<u>Location</u>	
001H	10.08	Stanley Tank Terminal	TWN 156N, RGE 92W, SEC 25; Mountrail County
002H	18.9	Ramberg Tank Terminal	TWN 156N, RGE 95W, SEC 32; Williams County
003H	10.5	Epping Tank Terminal	TWN 156N, RGE 98W, SEC 32; Williams County
004H	10.5	Trenton Tank Terminal	TWN 154N, RGE 102W, SEC 35; Williams County
005H	14.7	Watford City Tank Terminal	TWN 149N, RGE 99W, SEC 1; McKenzie County
006H	16.8	Johnson's Corner Tank Terminal	TWN 150N, RGE 96W, SEC 23; McKenzie County

**All discharge points shall be inspected daily.** On a daily basis record the total volume of discharge and make a visual inspection for Oil and Grease. Analytical parameters for pH and Total Suspended Solids (TSS) shall be tested for this project. The parameter for Chlorine shall be tested only if the water source has been chlorinated. The parameter of Oil and/or Grease is waived unless sheen is observed in the discharge; if observed then collect a sample for Total Petroleum Hydrocarbon (TPH). The department shall be contacted on all findings of Oil and Grease. All discharges made directly to a surface water body or wetland shall be inspected closely so as to minimize any turbidity issues. Best Management Practices (BMPs) must be used to minimize the impact of the discharge.

**ADDITIVES:** No additives were reviewed for this project.

Enclosed are Discharge Monitoring Report (DMR) forms for your use. If someone else is responsible for the submittal of the DMRs, please forward this letter and the enclosed forms to them. The reports cover three months; the dates and location have been filled out. If no discharge occurs during the reporting period, check "No" in section one. The reports must be post-marked by the last day of the month following the end of each reporting period. All original DMR forms should be sent to NDDoH and a copy should be kept for your files. **EPA no longer requires a copy of the DMR form.**

If any other testing is conducted during this project, copies of the results of any such test should be forwarded to the Department. **Should you wish to no longer be covered under this permit, you must submit a written request to terminate and cite the reasons for termination.** Coverage shall be maintained until a written notification to release has been issued to the permittee by NDDoH. Should you have any questions about your permit or how to complete the DMRs, please contact me at (701) 328-5237.

Sincerely,

Sarah Waldron
